### Product Range

- Pipe
- Butt Weld Fittings
- Flanges
- Pipe Accessories
- Forged Hanger Spool
- Coiled Tubing
- Forged Riser Connectors
- Forged Tapered Joints
- Goosenecks Forgings
- Forged Seamless Pipes
- Pad Eye
- Welded Overlay Components
- 3D & 5D Bends

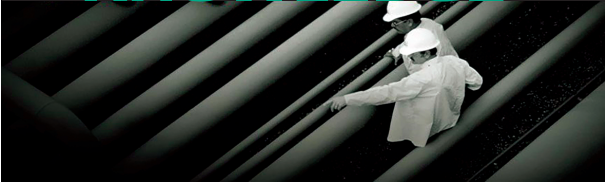

- Geared Rings
- Four-Point Contact Bearings
- Eight-Point Contact Bearings
- Cross Roller Bearings
- Three-row of Roller Bearings
- Combined Bearings
- Cross Roller Bearings
- Profile Bearings
- Custom-Designed Bearings for Special Applications (e.g., Bearing wheels)
- Integral and Segmented Gears
- Integral and Segmented Rings
- Special Forged Products
- Welded Overlay Components
- 3D & 5D Bends

- Pipe
- Butt Weld Fittings
- Flanges
- Pipe Accessories
- Barred Tees
- 3D & 5D Bends
- Special Forged Products
- Ball Valves and Actuators
- Welded Overlay Components

- Pipe
- Butt Weld Fittings
- Flanges
- Pipe Accessories
- G-Lok® Clamp Connectors
- GC-Compact® Flanges
- Swivel Stacks
- Utility Swivels
- Chain Stoppers
- Geared Rings
- Four-Point Contact Bearings
- Eight-Point Contact Bearings
- Cross Roller Bearings
- Three-row of Roller Bearings
- Combined Bearings
- Cross Roller Bearings
- Profile Bearings
- Custom-Designed Bearings for Special Applications (e.g., Bearing wheels)
- Integral and Segmented Gears
- Integral and Segmented Rings
- Special Forged Products
- Welded Overlay Components
- Valving
- Manual or Actuated Side Entry Ball Valves
- Manual or Actuated Top Entry Ball Valves
- Manual or Actuated DB/DBB Side Entry Ball Valves
- Manual or Actuated DB/DBB Top Entry Ball Valves
- DB/DBB Monoflange Needle
- Welded Overlay Components
- 3D & 5D Bends

- Pipe
- Butt Weld Fittings
- Flanges
- Pipe Accessories
- Forged Wye
- Forged Tees
- Bulkheads
- Anchoring Flanges
- Forged Reducers
- Ball Mis-Alignment Flanges
- Forged Connection Pieces
- J-Lay Collars
- Buckle Arrestors
- CHOCs
- Forged Centralisers
- Forged Seamless Pipes
- Forged Rings
- Forged Pinions
- Forged Bars
- Valving
- Subsea Double Block & Bleed Ball Valves
- API6A Subsea Ball Valves
- API6DSS Subsea Ball Valves
- Welded Overlay Components
- 3D & 5D Bends

**Australasian Fittings & Flanges (AFF) is affiliated with the Galperti Group**

**Officine Nicola Galperti and Figlio S.P.A.:** Manufacturer of Forged standard and special flanges.

**Galperti Engineering and Flow Control S.R.L.:** Manufacturer of high integrity forged mechanical connectors, forged standard and special valves.

**Galperti Tech Products S.P.A.:** Manufacturer of large diameter bearings and special forged products.

**Galperti Manufacturing Malaysia SDN. BHD.:** Manufacturer of fast track forged standard and special flanges.

AFF, established in 2006 as part of the globally operating Galperti Group, specialises in providing comprehensive services for piping and valve components.

At our core, we believe in “Bringing the manufacturer to the client,” a philosophy that has propelled our success. This approach allows us to offer our clients a robust and globally competitive supply chain, delivering innovative and cost-effective solutions tailored to their specific needs.

Through our extensive worldwide network, we offer our customers access to renowned manufacturers and stocks from all affiliates around the globe. This ensures a continuous source of quality products, regardless of location.

Our dedication to our customers is unwavering. We prioritise building sustainable relationships based on mutual trust, commitment, and close collaboration. Customer satisfaction is paramount, and we continuously strive to meet market demands for technical expertise and high-quality products in the field of piping and valves.

In summary, at AFF, we are committed to delivering excellence, meeting our customers’ needs, and exceeding their expectations every step of the way.
