

Australasian Fittings & Flanges (AFF), comprehensive stockholding solution allows us to maintain an extensive and diverse inventory of pipes, fittings, flanges, and stud bolts. This enables us to ensure swift and dependable delivery to a variety of sectors, including onshore and offshore Oil and Gas facilities, Subsea Structures, Pipelines, Cryogenic Applications, Power and Desalination Industries.

Our strategic partnerships with globally renowned manufacturers and stockists, known for their unwavering commitment to quality and integrity, provide expedited access to premium-grade stock.

This includes additional or replacement items, all delivered promptly and at highly competitive prices.

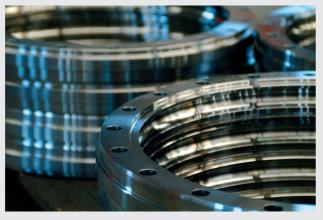

Through meticulous tendering processes for all stock orders, we prioritise securing the most favorable prices without compromising on product quality, quantity, or availability. Whether catering to a large-scale maintenance project or fulfilling a specific one-off requirement, we are equipped to supply the ideal product for any application.

We have earned a reputation as the leading supplier of piping materials, adept at meeting the urgent demands of both fast-track maintenance and project procurement endeavors. Our commitment to quality is underscored by our Quality Management System, which adheres to the stringent standards outlined in ISO-9001:2015 certification, ensuring we deliver products and services of unparalleled excellence.

Stockholding Strengths

Our extensive inventory includes a wide range of pipes, butt weld fittings, forged steel fittings, and flanges in Carbon Steel, Low Temperature Carbon Steel, Stainless Steel 304/304L & 316/316L, Duplex, and Super Duplex. Additionally, we stock a plethora of gaskets and stud bolts to meet various needs. We also have the most comprehensive Super Duplex Stud Bolt stock in Australia.

All our products originate from internationally recognised and accredited manufacturers, ensuring full compliance with the industry's rigorous quality standards. Sourced exclusively from ISO 9001 certified

manufacturers, our materials are certified according to EN 10204 standards, with Type 3.1 certification readily available and Type 3.2 available upon request. We offer a comprehensive one-stop solution for all types of piping components. Our commitment to prompt and reliable delivery is unwavering.

High-quality products and exceptional customer service are our foremost priorities, with full traceability of materials guaranteed up to the raw source. With a proven track record, we have supplied packages to esteemed end users such as Chevron, Woodside, Santos, Inpex, Shell, Esso, and ConocoPhillips, among others.

Our reputation for delivering quality products has made us a trusted name throughout Australia. We conduct thorough reviews of client requirements and specifications to ensure full compliance with all standards. Regardless of your location or the complexity of your requirements, you can count on us for a fast and accurate response to your needs. Our expert advice ensures correct installation, maintenance, and sustained functionality of your equipment.

GLOBAL PLAYER. LOCAL MANAGEMENT.

Super Duplex Stud Bolts & Nuts

We offer an extensive inventory of Super Duplex Stud Bolts and Nuts in Australia allowing us to offer short lead times and ensure on-time deliveries.

Key Features:

- Imperial Range: Available from ½" to 2".
- Stud Bolts: ASME B16.5 Full Threaded (ASME B1.1 CL.2A), strain hardened, and impact tested at either -50°C or -101°C.
- Heavy Hex Nuts: Compliant with ASME B18.2.2
 Table 10, threaded (ASME B1.1 CL.2B), and single chamfered washer faced.
- G48 Tested: All our products undergo rigorous testing at 48 hours @ 50°C.
- Custom Lengths: We cut to clients' specific requirements.

 Our dedicated team of experts ensures that our platform is well-equipped to meet your needs effectively, whether you're a domestic or global customer. Trust AFF for reliable service and topquality products.

Distixx® Flange And Valve Face Protectors

Our distribution agreement with Distixx[®], a renowned provider of premium-quality NBR-based rubber and specially formulated adhesive. This unique combination ensures residue-free protection upon removal from any surface.

Product Range:

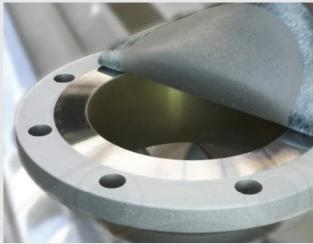

- Flange face protection for Flanges, Valves, Spooled Pipework, and Pumps.
- Ideal for blasting, painting, storage, and transportation needs.

Key Benefits:

- Self-Adhesive: Provides 100% protection to flange facings.
- Structural Integrity: No deformation, loosening, or detachment of flange protectors.
- Convenience: Fast and easy application without glue residue.
- Resistance: Oil and chloride-free, weatherresistant.

Characteristics:

- Self-adhesive NBR rubber (1.5mm).
- Available in all sizes and shapes from ½" (Ø 36mm) to 30" (Ø 860mm).
- 100% protection during blasting, painting, transportation, and storage.
- Withstands temperature ranges of -20°C to +60°C.

OUR STRENGTHS

Specialised Forged Products: We specialise in customised forged products for demanding applications.

In-House Manufacturing: All manufacturing processes, including forging, heat treatment, machining, and painting, are conducted inhouse, ensuring optimal control at every stage.

Specification Compliance: We conduct thorough specification reviews to ensure complete compliance with all requirements.

Quality and Traceability: Our commitment to high quality and superior customer service includes full traceability of materials back to the raw source.

Ongoing Support: We provide ongoing solutions, advice, and recommendations throughout the entire lifespan of your plant.

Global Sourcing: We source superior quality products from globally renowned manufacturers, all of whom are ISO 9001 certified.

Material Selection: Our meticulous material selection process ensures extended facility longevity.

Consistent Delivery: Renowned for our consistent delivery of high-quality products.

Prompt Responses: Rely on us for prompt and precise responses to your inquiries.

Comprehensive Project Management: Our services cover order management, technical queries, documentation, expediting, logistics, and more.

Expert Guidance: Receive expert guidance to ensure accurate installation, maintenance, and sustained functionality.

"Bringing the manufacturer to the client" is the principle that drives our success. AFF offers a comprehensive, globally competitive supply chain, delivering innovative and cost-effective solutions tailored to client specifications. Our goal is to be the preferred supply partner, consistently ensuring that our product quality exceeds client expectations.
